It was assumed that those lands would be under the same jurisdiction as other school lands in Nebraska and that they could be managed in the same manner. However, there was a request made to the Attorney General to ascertain if it was true, and the Attorney General said that it was very questionable and probably there should be clarifying legislation so that it might be done. That is the reason for LB205, it provides that the management of these lands in trust for the school of the blind be managed in the same manner as other school lands in the State of Nebraska. PRESIDENT: LB218 is advanced. Mr. Clerk, you have some bills to introduce? Oh, excuse me, I'm sorry Senator.
